1. Hero Headline & Subheadline Variations

Option A: Speed & Setup Focus (Recommended)

- **Headline:** Stop Building Workflows from Scratch: Turn 20 Hours of Setup into 5 Minutes
- **Subheadline:** The plug-and-play Digital Product Operating System featuring pre-built AI prompt vaults, polished pitch decks, and matching social assets ready to clone directly into your Google Drive in 1 click.

Option B: Value & Output Focus

- **Headline:** Launch Your Complete High-Ticket Operating System in Under 5 Minutes
- **Subheadline:** Bypass weeks of tedious design and prompt engineering. Get an end-to-end master resource vault engineered to standardise your SOPs, polish your client sales decks, and automate content creation.

Option C: Friction Removal & AI Integration Focus

- **Headline:** The All-in-One AI & SOP System Built Directly Inside Google Workspace

- **Subheadline:** Eliminate tool fatigue with 1-click Google Drive template cloning, production-ready mega-prompts, and a dedicated interactive Gemini AI companion pre-tuned to your brand.

2. Before vs. After Transformation Cards

Operational Struggle (Before)	Instant System Outcome (After)
Endless Setup Friction: Spending 15+ hours building SOPs, formatting slides, and structuring AI prompts from scratch.	1-Click Workspace Setup: Clone the entire master operating system into your personal Google Drive in under 5 minutes.
Inconsistent Branding & Design: Mismatched presentations, generic templates, and AI outputs that sound robotic or off-brand.	Cohesive Brand Suite: Instant access to 30 matching Canva templates, a high-converting pitch deck, and a 5-minute Brand Voice Calibrator.
AI Prompt Confusion: Staring at blank prompt boxes, getting unpredictable results, and losing track of operational workflows.	Interactive AI Companion: Pre-configured Gemini AI assistant with built-in prompt chains to customize your assets on demand.
